## Parsons Avenue Street Rehabilitation- Franklin Avenue to Broad Street

### Project Description:

- The project area is along Parsons Avenue for approximately 725' between Broad Street and Franklin Avenue. The limits are bounded on the north, west, and south by the termination of ODOT's I-70/71 project, Phase 3.
- This project consists of pavement reconstruction of Parsons Avenue, relocation of the curb-line and installation of curb bumpouts to define the parking areas.
- Streetscape improvements include: removal, replacement, and widening of the existing sidewalks, new street trees, and new street lighting.
- The signals at Parsons Avenue and Broad Street as well as Parsons Avenue and Oak Street will be upgraded.
- A westbound left turn lane onto Broad Street will be added.
- Hamilton Avenue north of Broad Street will be converted to two way with a right-in/right-out.
- Utility work includes the undergrounding of existing aerial distribution facilities, water line replacement, and improvements to the storm sewer system.
- Sidewalks are intended to be installed within the proposed right-of-way.
- The first part of this project will include conceptual engineering aspects such as; conceptual layout, exhibit preparation, colored renderings, public involvement meeting attendance and coordination with on-going projects within the project area.

### Schedule:

- Conceptual Design: In Progress
- Final Design: Anticipated completion in summer 2015
- Utility Relocation: Anticipated complete in spring 2016
- Construction: Anticipated start in fall 2016

### Cost:

- Design: \$575,000 (estimated)
- Preliminary Construction: \$4.2 Million (estimated)
